DECLARATION OF CHARLES R. STEWART UNDER 37 CFR §1.132

I, Charles R. Stewart, Declare as follows:

I am at least 18 years of age and am competent in all respects to make the following statements.

I am the sole inventor for claims 11-15, 17, 19, 20, and 22-25 currently pending in US Patent Application No. 10/809,761.

The work presented by Sampath, et al., May 2002, was work conceived of by myself, executed under my instructions, and occurred less than 1 year prior to filing US Patent Application No. 60/457,287.

In 2004, I published data demonstrating that GP44 (SEQ ID NO: 8) is one of the class of proteins that do not cause cell lysis (Sampath, 2004). Because GP44 (SEQ ID NO: 8) does not cause cell lysis it is a good candidate peptide for antimicrobial treatment in a mammal because it will be unlikely to cause the Jarisch-Herxheimer reaction.

I further declare that all statements made herein of my own knowledge are true and made on information believed to be true; further that these statements were made with the knowledge that willful false statements are punishable by fine or imprisonment, or both,

under Section 1001 of Title 18 of the United States Code; and that such willful false statements may jeopardize the validity of any application for which it is used.

Dated: Dec. 9, 2005
